The famous
Hinge Door
 Wood Stave Silo
 Wind and Storm Proof

THE Famous Hinge Door, the all steel door frame, the hook lag support and lag screws, together with the ground anchor and cable tightener and the King-B Roof, make the Ladder Hinge Door Wood Stave Silo the peer of all silos in scientific construction.

J. B. Crum, Dalton, Mo.

would be glad to explain to you the principle of the Hinge Door. How it is easy to climb the big steel hinge which will hold a weight of over 2000 pounds. How the door never will sag, freeze in, bind or stick, and is always in place. How the lever operated by one hand will open and close the door. How the ensilage will keep perfectly next to the door. How the Hinge Door prevents silage from freezing in winter and drying out in summer, and how the door is always securely fastened to the silo.

Study the illustration at the left which shows three sections of the famous Ladder Hinge Door.

Do not place an order for a Silo until you have talked over the proposition with our agent.

Colda
 It's Snappy

The business lunch goes better with a bottle of snappy Colda as the beverage. The pleasant hop flavor is appetizing—refreshing—superior to other beverages.

Try Colda at soda fountain or cafe. Order a case sent home.
